

EXTERNAL EVENTS

The 5th meeting of the EDA, Amsterdam Nov 11-12, 2010

We now invite abstracts for oral presentations and posters for the 5th meeting of the EDA, Amsterdam Nov 11-12.

Abstract submission

Please provide a structured abstract (introduction, methods, results, discussion), with details of subject numbers, statistical tests, etc., if applicable, with a maximum of 300 words. Please indicate if you wish the abstract to be considered for oral presentation and/or poster, or just for a poster. Finally, indicate if you are happy that the abstracts be posted on the EDA website.

The deadline for abstract submissions is 31 August 2010.

The abstract submission form can be found here:

Open poster policy

As in prior EDA conferences, we will also be having an open poster policy, so even if you do not submit an abstract you are very welcome to bring a poster. For example, you may wish to provide information on an ongoing or proposed study, results of an audit, or describe the development of a new clinical service, etc. Such less formal posters have been very popular in our previous meetings.

More information on the conference can be found here:

The programme will be posted shortly.
